Conversor Ltd : folded 4 page brochure to promote various note taking apps for students

notetalker

Notetalker is an all-inclusive productivity tool for making sound and vision notes. It transforms note writing into a more efficient process, allowing more time to keep up with discussions in the classroom or lecture, and encourages creativity and learning.

Notetalker app and desktop software, Notetalker Edit, work together to record spoken words, highlight key phrases, save visual stimuli including video, and export to revision and essay planning files including mind maps. These rich media notes can be tailored to suit any learning style, improving study outcomes for all abilities and supporting independent learners.

Notetalker app and Notetalker Edit are beneficial in supporting students and academic staff in schools, colleges and universities.

More about Notetalker

- Compatible with iOS and Android devices, and Mac and Windows PCs
- Additional study skills e-Learning course available for students
- Suitable for students in receipt of DSA funding
- Flexible and cost-effective strategic solution for schools, colleges and universities
- Special rates for students' personal devices and PCs

Discover how Notetalker can support your students and staff:

notetalker academy

Success with Study Skills is an e-Learning course for post-16 students and professionals working in student support roles.

Success with Study Skills can be accessed for free if a student is in receipt of Notetalker Pro through DSA funding. A course subscription is available to any other student who would like to develop their study skills.

Students can:

- Identify effective study techniques suited to their learning style
- Investigate different note writing techniques
- Develop study skills to improve study outcomes

Professionals can:

- Gain in-depth knowledge about Notetalker app and Notetalker Edit
- Receive free user codes to complete free online CPD (available for DSA Assessors, AT Trainers and Study Skills Tutors)
